

USER'S GUIDE

Servier Medical Art provides you with thousands of professionally designed medical images. These high-quality vector images are classified thematically into Powerpoint files, from which they can be copied individually and used and combined in order to make your own Powerpoint presentations.

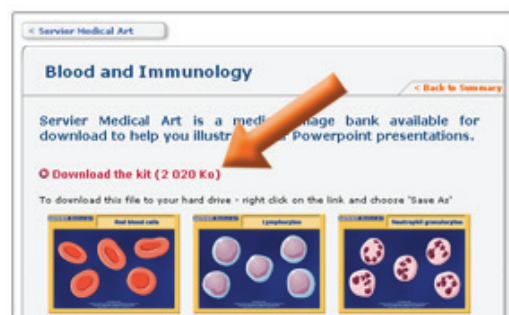

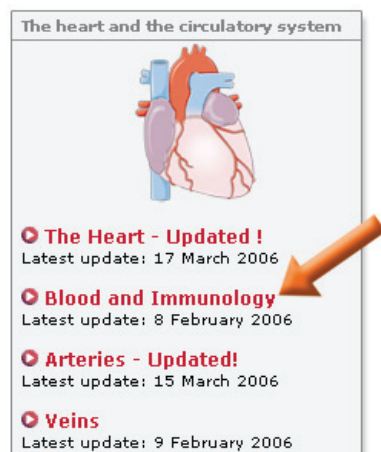

How to use **Servier Medical Art**?

Download

- At www.servier.com, access the 'Servier Medical Art section' through the 'healthcare professional' part of the site.

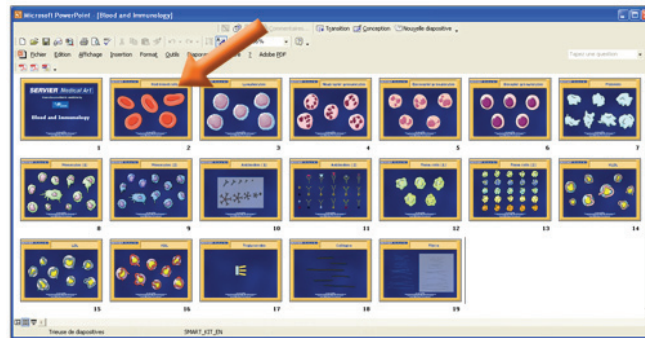

- Within this section, click on the slide kit you want to see.
- To download the file, right click on "Download the kit" and select "save target as...".

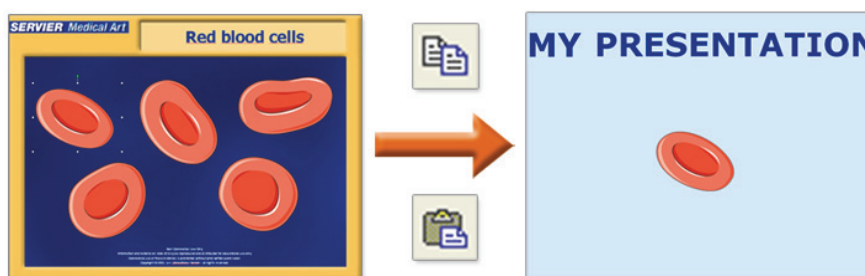

Use

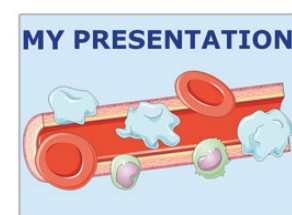

- Open the slidekit by a double-click or directly with Powerpoint, by selecting File/Open.
- Double-click on the slide containing the image you want to use to open it.

- Select the image to highlight it. Square white dots appear around the image.
- **To copy the image:** click on the "Copy" icon:  (PC)  (MAC)
- **To paste the image:** open the Powerpoint presentation in which you want to insert this image. Click on the "Paste" icon:  (PC)  (MAC)

- Repeat those operations in order to insert other images.

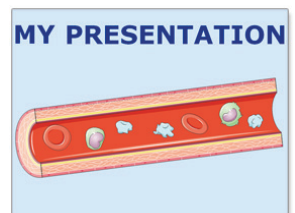

- To move an image, click on it with the mouse and, holding the mouse button down, move the mouse. When you let go of the mouse button, the image will move.

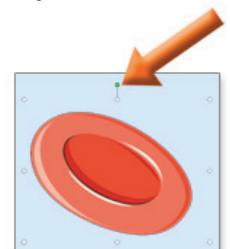

- **Image modification:**

- To position an image in the foreground or background:
 - . **PC:** right click on the image with the mouse, click on "Order" and select foreground or background.
 - . **MAC:** select foreground or background in this menu: 

- To enlarge or reduce an image: click on the image to select it. Square white dots appear around the image. Click on a square and drag the mouse to resize.

- To rotate an image: select the image and click on the 'Rotation' icon:  (PC)  (MAC)
Click on the green point above the image and rotate it until it is in the right position.
